

FNAWS Hunt Report

By Ben Lupia

Hello,

I would like to report to you about a hunt that I bought at last years convention. This particular hunt was with Canadian Mountain Outfitters, LTD owned and operated by Bryan Martin. The hunt was for mountain goats in Northern British Columbia.

This hunt was one of the best hunts that I have ever been on. Bryan Martin is not only an excellent outfitter, but he's also an exceptional

young man. Bryan is interested in running a small, but very high quality operation. He gets an A+ on all aspects of the hunt: availability and quality of game, equipment, food, facilities, transport, and fishing. Most outstanding are his guides.

I hunted with an exceptional guide named Warren Riding. Warren's expertise enabled me to get a very nice 10 ¼" trophy goat, a picture of which I am including in this letter.

I would not hesitate to recommend Bryan's operation. I was impressed with the way the hunting was individualized. Each goat hunter went to a different area where no one

else had hunted this year and was able to take the best animal in that area.

I am looking forward to the FNAWS convention next winter.

Sincerely,

BenLupia

PS: I would like to thank Mr. Stanley Boots for his time and honest opinion of this outfitter. At last year's convention Mr. Boots played a big part in my bidding and buying this particular hunt. Thank you, Mr. Boots, for a super goat trophy.
